Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3634

Claims 1-10 and 13-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1 and 10: lines 4 and 10 respectively, there is no antecedent basis for "the first portions". In claim 1, in line 8, it is not clear if "in first and second portions" is referring to same "first portions" in line 4; the second transparent member is said to be able to be movable in the second rectangular tracking member so as open and close the second portions of the opening. However, it is not clear how one transparent member (second) can cover the entire opening.

In claim 3, it is not clear which opening is "the opening", line 6.

Claims 3-10 and 13-18 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

The intermediate member has not been adequately disclosed or shown.

Claims 1-10 and 13-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ruby et al.

See base support member 12,14,16,18; tracking members, which are the elements which define tracks 82,84,118,120, and are aligned in "portions" of the opening; transparent members 20,30, each coupled in respective tracking member. Both transparent members may be slid to open and close the window. While Ruby et al

Art Unit: 3634

provides a nailing fin, Fig. 9, as part of his base support member, it is not disclosed if the nailing fin has spaced apertures. However, such is well known in the art and therefore, providing apertures for the fasteners which go through the nailing fin would have been well within the purview of one of ordinary skill in the art.

Regarding claim 2, the upper frame member has portions which "cover" the transparent members.

Regarding claim 3, etc., the frame member 34 constitutes an intermediate member as broadly recited.

Regarding claims 3 and 4, the base members 12,14,16,18, have numerous flanges,sides, etc., which meet the limitations of various horizontal, vertical, and perpendicularly oriented members.

The use of plexiglass in windows is well known in the art and it would have been obvious to replace the glass of Ruby et al with plexiglass so as to render the window more damage resistant and lighter in weight.

Applicant's arguments have been fully considered but they are not persuasive.

Applicant has not addressed the rejection under 35 USC 112, first paragraph.

New rejections under 35 USC 112, second paragraph, have been made as necessitated by the amendment.

Applicant's remarks concerning the art rejection are limited to merely stating what each claim recites and a statement that Ruby et al does not show the recited elements. The rejection above details the portions of Ruby et al which read on each of the recited elements and no further explanation is required.

Art Unit: 3634

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

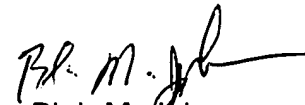

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
